thanks --

and here is the article on SGAR I said I would send out

Environ. Intl. Second generation anticoagulant rodenticides in predatory birds - probabilistic.pdf

It was just published this week. I don't know if it is any good or of any use, but the title caught my attention. Please forward it to the appropriate folks on the team if

you think it might be useful.

david.

Date: 05/10/2011 11:55 AM
Subject: Rodenticides NOIC

Just to recap the meeting:

- We are currently looking at having all docs needed to present to the SAP finalized by the end of November 2011, with the intention of holding an SAP sometime January-March 2012.
- Rusty will review the 1998 REDs to obtain a list of HED documents that may need to be revised/updated
- HED will provide the chlorpyrifos "tier II" template to see if this will be helpful
- HED will look into expanding the scope of the incident reporting to including populations older than 6.

I will send out to the entire team PMRA's RMD equivalent and Reckitt's past arguments against our rodenticide positions.

Thanks Again,

Rusty_____
